

## **COBA INTERNATIONAL LTD TO SUPPORT DEVELOPMENT OF THE COBA PLATFORM**

COBA International Ltd will assume the responsibility of future development of the COBA Building Operating System (BOS) platform. COBA Building Operating System is a generic software platform, which facilitates integration and interoperability of building management and security systems. Standard based COBA BOS Framework definitions form the foundation of the platform. The role of COBA International is to facilitate and coordinate further development of the platform, authorize new COBA drivers, offer development services and provide technical support for COBA developers.
