

## **COBA WEBVIEW TO ENABLE REMOTE MONITORING WITH A WEB BROWSER**

COBA WebView is the new user-friendly addition to professional monitoring applications. All COBA connected building management and security systems are easy to access using a standard web browser. After the secured login the COBA WebView allows the user to access all the connected systems, ranging from building automation and room controls to emergency lighting and demanding security systems. COBA WebView provides significant advantages for professional users of remote monitoring in terms of flexibility, cost savings and ease of use.

### **About COBA**

COBA Building Operating System (BOS) is a generic software platform for integration and interoperability of all building systems. Standard based COBA BOS Framework definitions form the foundation of the platform. COBA International Ltd facilitates and coordinates further development of the platform, authorizes new COBA drivers, offers development services and provides technical support for COBA developers.
